

Using Mopria Scan with Adobe Acrobat for Android

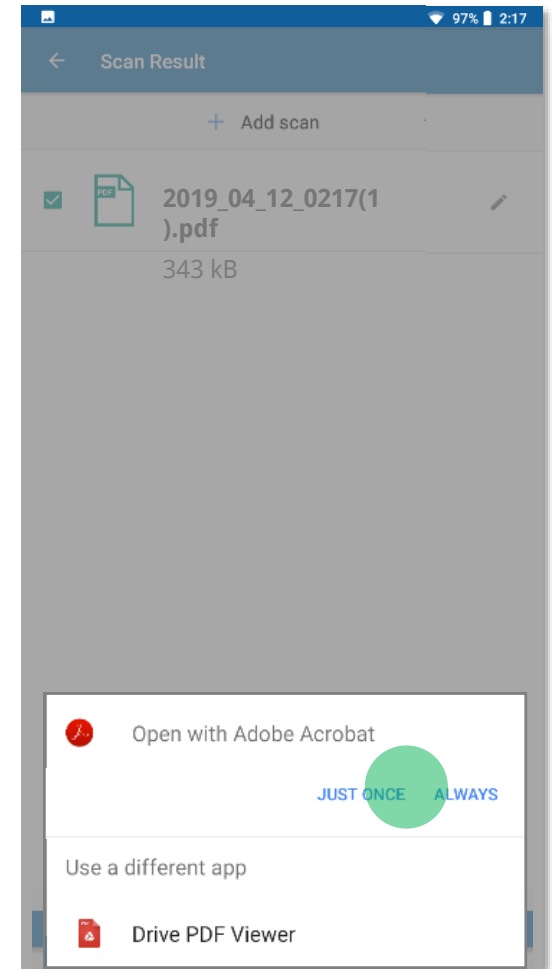

Place original document in scanner or copier. Open the Mopria Scan app, select scanner or copier and settings.

Tap Scan.

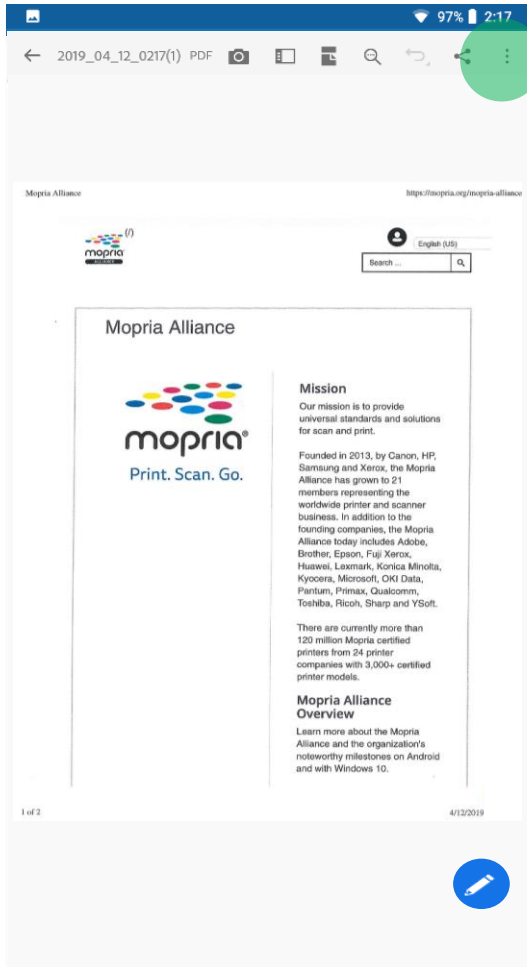

When scanned, tap on the document.

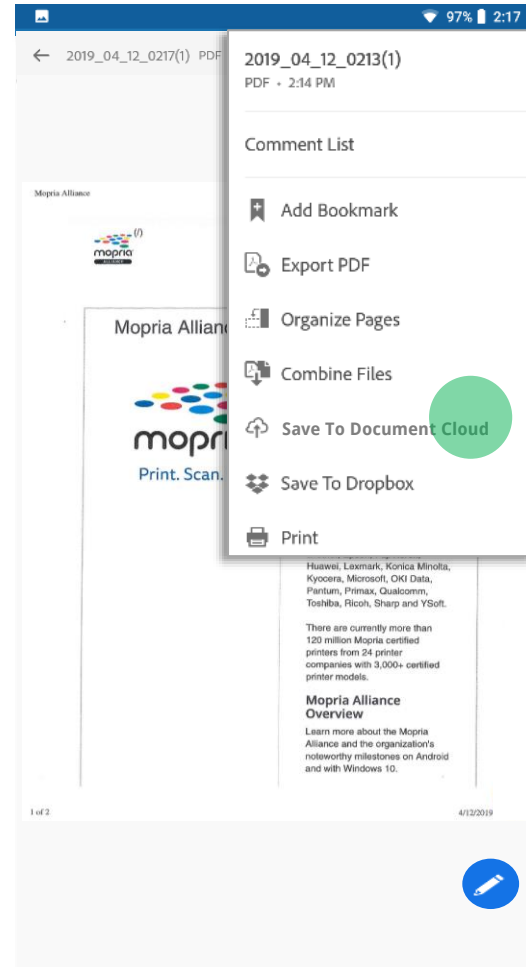

Select Adobe Acrobat.

Using Mopria Scan with Adobe Acrobat for Android

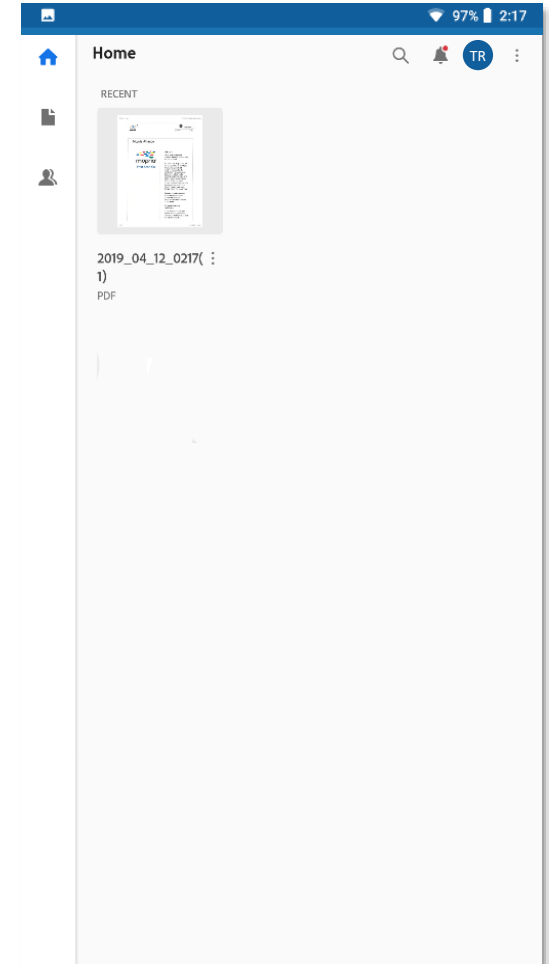

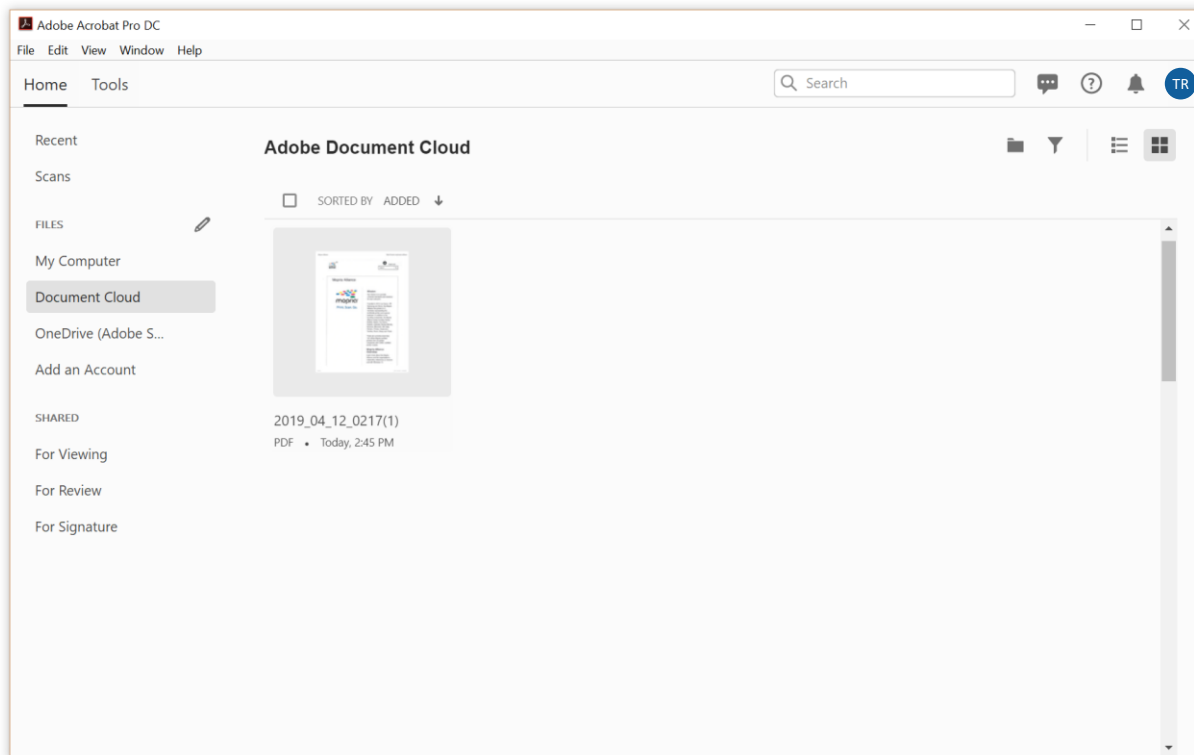

Adobe Acrobat opens the file. Tap Menu.

Tap Save to the Document Cloud.

Using Mopria Scan with Adobe Acrobat for Android

Your scan is now available in the cloud to be accessed on your PC or mobile device.
